AL PORSAIDEYA

FOR FOOD INDUSTRIES

ONE OF SOLIMAN GROUP

Who Are we ?

A 100% Egyptian company Established in 2017
During this period, we was able to grow and become a pioneer
In the field of refining and packaging vegetable oils and their
derivatives.

The Packing Plant launched in 2020

The PET Bottles Plant launched in 2020

The refinery plant launched in 2021

Al Porsaideya for Food Industries is a leading company in the
production of vegetable oils and their derivatives. The company
has chosen a privileged location near to the most important
ports of Egypt.

In addition, the company has a future expansion plan to increase
the spread of its products in Egypt, the Gulf countries and Africa.

All phases of the project were designed and implemented in
cooperation with major European companies specialized in Edible
Oil producing lines and refining units with a high production
capacity of oils in order to provide products of the highest
quality and international specifications.

The company always employs the highest qualified workers
Egyptian and foreign experts alike.

The distinguished location in the city of Port Said, which is
located in the North East of Egypt, it extends about 30 km along
the sea coast Mediterranean city north of the Suez Canal
Universality ranked second among Egyptian cities according to
the human development index.

Packing Plant

The Packing Plant launched in 2020

All packing machines in the packing plant were imported from the best European brands, and equipped with the latest technology in the field of packaging and the aim is to maintain high quality to meet the challenge in the local and global market.

The packing plant operates fully automatically, and the human factor is only to control the manufacturing processes to achieve safe healthy product.

The shelf life of packaged products is 12 months as they are filled under the cover of a Nitrogen blanket.

Manufacture of PET Bottles

The PET Bottles Plant launched in 2020

The latest European machines at the highest level of quality provide sizes (500 ml - 600 ml - 650 ml - 700 ml - 750 ml – 800 ml - 900 ml - 1.9 liters - 2.2 liters - 3 liters - 4 liters - 5 liters) in various forms.

The bottle plant operates fully automatically
And the human factor is only to control the manufacturing processes to achieve safe healthy product.

Refining plant

The refinery plant launched in 2021

The refinery plant is one of the latest technologies for vegetable oil refining units with a high production capacity of oils and low energy consumption the equipment's are selected from the best international manufacturers in this field.

The refinery plant operates fully automatically, and the human factor is only to monitor the manufacturing processes in order to achieve a safe healthy product In accordance with the latest requirements of food safety legislation in the world the product has many features.

The product is free of genetically modified fats

The product contains natural antioxidants and vitamins A-E
The product is completely free of any traces of pesticides and agricultural pollutants.

Quality certifications

The quality sector includes QC, QA, and R&D laboratories that are well-equipped with the most advanced analytical instruments.

Also, well-trained professional chemists are there to control all the processes.

The aim is to always keep the quality and food safety high to ensure that the product is safe and healthy for the consumers.

we comply with integrated quality management systems ISO 9001 - ISO 22000 - ISO 14001 - ISO 45001 - BRCGS Issue 9 The Refine and Filling is registered on the white list of the National Food Safety Authority
